Ref: Scoping Letter for the Drum Mountains Temperature Gradient Well Project

To Whom It May Concern,

The Fillmore Field Office of the Bureau of Land Management (BLM) is notifying you that we will be preparing an Environmental Assessment for the Drum Mountains Temperature Gradient Exploration Project. Standard Steam Trust has mailed a Resubmitted Notice of Intent to the BLM requesting approval to drill temperature gradient wells and open new access routes to the proposed well pad sites.

The project area is at the north end of Whirlwind Valley and the south end of Fish Springs Flat. Surrounding landmarks include Swasey Mountain to the southwest, Topaz Mountain to the northeast, the Drum Mountains to the east, and Sand Pass to the west.

A scoping information packet for the project can be read by accessing the Environmental Notification Bulletin Board (ENBB) on the BLM Utah website. Links to the ENBB and the ENBB application can be found at <https://www.blm.gov/ut/st/en/info/nepa.html>.

If you have any questions, please contact George Cruz, Project Manager at (435) 743-3126.

Sincerely,

Clara Stevens

Patricia M. Bailey
Acting Field Office Manager
